Microsoft Access is an extremely versatile and powerful tool for building robust databases with relatively little effort but can seem daunting to the inexperienced eye. Whether you're a total novice, seasoned user or expert looking for a few extra hints and tips for professional database design, Business Solutions @ Northbrook have the workshop you need.

Who is this course for?

This workshop provides an easy way to understand the basic principles of the Access Database program.

What if I can't fit it in?

The Business Solutions @ Northbrook team understand how hectic life can be sometimes; its for this reason that we're happy to customise this workshop for individual employers and ensure flexible delivery, either on your premises or at Northbrook College (A company costing will be provided once your training needs are finalised).

What do I gain on completion?

Upon completion of this one day workshop you will receive a Northbrook College Certificate of Attendance, easy to follow handouts, and enough knowledge to proceed and progress onto other workshops and IT courses. Oh, and don't worry - there are no examinations or assessments on this course!

Do I need any experience?

There are no entry requirements for this course.

What are the specific details?
